

INFORMATION FOR FUTURE FEATURE ARTICLES.

Rescued Barn find condition Unrestored display Restored display.

If you would like a certain piece of history in an article to be featured in our news letter please fill in the collection sheet with as much detail and photographs as you have.

My first thoughts would be Trucks, Tractors, Cars, Motor cycles, Machinery and other Equipment, but not staying rigidly to this for a feature because some members have rescued or assisted in steam engines, boats, spanners, etc and extremealy unusual things and it is good to hear and talk about your interests. With 110 (?) members we have wide interests and most are members of other Clubs, expanding our/your thinking.

Please indicate the description group of your feature above are examples.

GUIDE to what information could be used, when you are writing your own story.

If there is a display information sheet photograph as close as possible this saves a lot of work.

Owner/s :- not essential.

Description:- ie truck, tractor etc.

History:- Use bottom and back of sheet, type, hand write, Use electronic or memory stick etc

Tell me if you want a hand ?

Make:-

Model:-

Year:-

HP:-

Motor :-

Cylinders No:-

Gear box:-

Foward No:-

Reverse No:-

Etc.

Load capacity:-

Brakes:-

Hydraulic:-

Air:-

Vacuume:-

Manual:- etc.

Disc:-

Drum:-

Flintstone:-

Anchor:- etc.

Starting method :-

Electric:

Air:-

Hand crank:-

Coil:- etc.

Wind screen cleaning method:-

Electric:-

Vacuume:-

Hand:- etc.

Not all features listed above apply, tell me your's truck, tractor, car, motor cycle.

Photographs and articles, before, during and after.

If I have prepared stories they can be used at short notice, a few lines and a photograph good, I will aim for one page articles but if longer may be a serial (if a lot of photos and you have a preference please indicate or I will choose).

Do a feature article and have a say about your restoration in our news letter.

No guarantee when articles will be used but if not available will never be featured.

I take my scanner to the monthly meetings to copy articles and Photographs so valued items do not have to leave your possession, I then scan these into my computer so it can be printed to size required for news letter, unless focus becomes a problem, I can sometimes edit out bits not required.

News letter Co-ordinator Geoffrey Lane 130 Darling St Wentworth 2648 (Phone 0434901812).

P. S. Can not do something but have a story, tell me " two heads are better than one".

I do have a supply of information but I want more members to be involved.
